

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION II

DATE: NOV 13 1992

SUBJECT: L.E. Carpenter Site - Stage IA Cultural Resources Survey

FROM: *Robert R.W. Witte*
John Filippelli, Chief
Environmental Analysis SectionTO: Nicoletta DiForte, Chief
Northern New Jersey Section II

We have reviewed the Stage IA Cultural Resources Survey (CRS) for the subject site, and offer the following comments.

- o The report presents the results of an adequate Stage IA CRS. A copy of the report containing original prints of the photographs should be made available to EIB.
- o The results of the survey indicate that portions of the project area are sensitive for the discovery of both prehistoric and historic resources. The areas of likely impact, due to proposed remedial actions, should be evaluated along with the areas of sensitivity as noted in the report to determine the need for additional cultural resources investigation. Therefore, we would like to meet with the RPM to discuss the project further.

Thank you for the opportunity to comment on this document. We look forward to meeting with your staff shortly. If you have any questions, concerning these comments or the information we have requested, please contact Susan Osofsky at x6677.
